

Group 2 plan tracker

What this is for. Group 2 in one tracker: what to study in which order, when to move on, and what you have finished.

Posts	673 posts (G.O.Ms.No.81, 22 August 2026); notification due 15 October 2026.	Not printed yet
Stages	Screening 150, qualifies · Mains 300, sets rank · computer test 100, qualifies	As in last notification
Marking	One third of a mark off for each wrong answer. No interview.	As in last notification

The plan: direction fixed, pace yours stretches begin on real events, never on guessed dates

Stretch	Starts when	What you do	You can move on when	Done
1 · Mains base	Now, before the notification	AP history, then the Constitution, then economy, then science and technology. Alongside each, one Screening-only part: Indian history, Indian society, geography. Mental ability a little most days. Current affairs once a month.	Every Mains row has S dated and R1 ticked. One Mains past paper tried under time.	☐
2 · Screening format	The notification prints the Screening date	Past Screening papers, timed sets of 30 per section, and the recent months of current affairs. Of the 21 current-affairs questions we could date, 20 were from the six months before the February 2024 paper.	Every Screening row on the third sheet has S dated. Two full papers under time, scores logged.	☐
3 · Mains, then the computer test	Right after the Screening	R2 and R3 on every Mains chapter. Full Mains papers under time. The computer test only has to be passed.	R3 ticked on every Mains row.	☐

Subject order inside a stretch can move; the method does not.

One chapter, five steps the same for every Mains row; on the grid, T = theme note

1 Read to understand, not to finish.	>	2 Close the book; say it back.	>	3 Do the past questions on it.	>	4 Write the date in S.	>	5 Tick R1 in a week, R2 in a month, R3 before the exam.
--------------------------------------	---	--------------------------------	---	--------------------------------	---	------------------------	---	---

A week, as a shape hours are yours; the shape holds

Weekdays. One fixed slot: part of a chapter, then 20 minutes of mental ability.	Weekend. Finish the chapter and its past questions; R1 or R2 on older rows.	Once a month. That month's current affairs; tick its box below.	Full-time job. Keep the weekday slot short; let the weekend carry the load.
--	--	--	--

Current affairs, month by month a habit in stretch 1; the recent months matter most in stretch 2
